

Write phrases from memory

Stage 3

Programme of Study

Write phrases from memory, and adapt these to create new sentences, to express ideas clearly.

Stage 3 criteria

Write a few sentences of varying length, with support, using knowledge of a few simple grammatical structures. Write short phrases from memory with a degree of accuracy.

Additional assessment opportunity

Understand basic grammar appropriate to the language being studied.

Context-specific example: clothes

Create a poster depicting and annotating three outfits for different occasions.

Notes

- ❖ It is important that pupils have the opportunity to practise sentences orally before producing them in writing.

Notes on Example outcome

- ❖ The outcome provided is an example of secure achievement at this Stage.
- ❖ The example does not contain any errors, however a pupil can make some mistakes, but still fulfil the criteria of the Stage.

What to do

- ❖ Display the sentence starters (Pupil resource 1) and model ways of completing the sentences.
- ❖ Give pupils pictures of clothing as a stimulus (Pupil resources 2 and 3), but let them know they can include additional items.
- ❖ Outlines of clothing items could be used instead to allow pupils to make their own colour selections.
- ❖ Pupils select items of clothing appropriate (or not!) for each situation.
- ❖ Pupils complete the sentences from memory.
- ❖ The additional extension support card could be provided to encourage the use of extended sentences and a wider variety of language (Pupil resource 4).
- ❖ Some pupils may be able to include adjectives and/or alternative situations.
