

F 1 – Colours 1

Slide 1: Practise the sounds and actions together

Displays video clips of the Spanish sounds and actions that occur in each set of keywords.

- Open up Slide 1 of the file entitled 'F 1 – Colours 1' on the CD-ROM.
- On the slide you will see 9 images, each representing one of the sounds you will encounter from one or more of the five Spanish colour words you are about to learn.
- Click on an image to view a video clip of the sound being produced along with the accompanying action.

- Watch the action; this will help you remember it. Resource R2 (pages 27–31) gives a description of each action.

“Put one hand on your chest patting gently as if you are trying to clear phlegm.”

- Practise making the sounds with the accompanying actions.

Slide 2: Check your knowledge of the sounds

Displays the action images which can be clicked on to hear the individual sound being made by native Spanish speakers.

- Use Slide 2 to practise associating the image with the sound only. Click on an image to hear the sound being pronounced by a native speaker. Then see if you can produce the sound, before clicking on it to check.
